

4 November, 1953

Dear Mr. Garrison,

In the past I have not been one to cut channels, however time is growing short. If everything goes as you previously planned I can look forward to quite a bit of work during the next six or seven months. With this in mind I thought you may be able to expedite instructions as to the disposition of the excess property listed with the transmittal of the 1st quarter property report.

In the event it is to be shipped, transferred or sold... I could begin packing, setting up operations and etc. while I have the personnel on board to assist me.

Also I would like you to send me the following as soon as possible:

Supply Catalog w/index of est. prices.

As you know.. the organization I am presently attached to is very explicit in their instructions to personnel NOT to cut channels in this way.. therefor please refrain from informing them of such. I have requested the above officially.. however no answer to date.

Everything else is going along smoothly and I will do my utmost to follow all instructions issued down.

Please give my regards to Fred, Bill, Ed G., Ed B. and all the rest that are around...

Respectfully yours
